## SCHEDULE SL-17 STREET LIGHTING SERVICE

### AVAILABILITY

Association owned street and parking lot lighting is available to municipalities, governmental bodies and other customers, provided the customer has a minimum of 10 luminaries, subject to the established rules and regulations of the Association.

### INSTALLATION CHARGES

For underground outdoor lights, the installation charge will be based on an engineering study. A nonrefundable contribution in aid to construction in the amount of one dollar and fifty cents (\$1.50) per foot for trenching will be required.

The customer will be required to furnish conduit for use in the installation of an underground outdoor light where the Association deems necessary. All above mentioned charges are non-refundable.

### MONTHLY RATE

The monthly rate shall consist of the following:

\*This luminaire type is no longer available for new installation.

#### POLE RENTAL CHARGE

For each pole installed solely for furnishing this lighting service the monthly charge is:

SWP	Wood Pole	\$ 1.70
SSP	Steel Pole	4.25
SCP	Concrete Pole	4.25

#### ENVIRONMENTAL CLAUSE

An environmental compliance charge will be allocated to the customer on a per kilowatt hour basis to recover the costs for complying with local, state and federal environmental regulations relating to the generation and transmission of electricity.

#### POWER COST ADJUSTMENT CLAUSE

The above rate shall be increased or decreased by 0.001 cents per kWh for each 0.001 cent by which the projected cost of purchased power divided by projected kWh sales increases or decreases as compared to the current cost of purchased power divided by kWh sales.

#### REGULATORY ADJUSTMENT CLAUSE

A regulatory adjustment will be allocated to the customer on a per meter or per kWh basis, to cover the expense of all regulatory taxes and fees imposed on the Association by any governmental body, including franchise fees, ad-valorem and property taxes, etc. The regulatory adjustment shall be increased or decreased in an amount equal to the projected annual total of all taxes and fees divided by the projected annual kWh sales to all consumers. Actual tax expense and kWh sales will be used to determine any overage or deficiency in the adjustment applied during the year. Any overage or deficiency will be adjusted on the projections for the succeeding year. The regulatory adjustment will be calculated annually.

#### SALES TAX

Billing under this rate schedule shall be subject to any applicable State and Municipal sales tax.

#### SPECIAL PROVISIONS

1. Maintenance of System - The Association at its expense will perform normal maintenance of the lighting system, and will at its expense, maintain the system and make normal replacements where maintenance and replacements are made necessary by normal wear and tear or damage by the elements.
2. Relocation or Removal of Luminaries - At the request of the customer, the Association will relocate, remove or change existing equipment. The customer shall reimburse the Association for actual cost, inclusive of appropriate overhead charges.

#### TERMS OF PAYMENT

In the event the current monthly bill is not paid within 14 days from the date of the bill, said bill will become delinquent and service may be discontinued.
